Set up your Surface Pro 3 and Surface Pen

Grab your Surface and let's go!

Before you start... Make sure a wireless network is available and you have the network password (if the network is secured).

Surface Pen setup

Before you use your Surface Pen the first time, you'll need to install the AAAA battery. You'll pair your new pen with Surface Mini a little later during setup.

To install the AAAA battery:

1. Unscrew the top of the pen from the bottom.
2. Insert the battery, wrapped in the label from the top of the pen, with the positive (+) end down toward the writing tip.
3. Screw the top back on.
